

SPARK LOYALTY®

The Smarter Solution for Independent Retailers

We are the leading solution for small independent retailers.

Our proof is in our customer successes: Spark Loyalty has 25 million check-in events with hundreds of retailers in 20+ states across the United States and around the world.

Unlike platforms such as *Square*, Spark Loyalty is:

- Locally-owned with US-based customer service
- Simple to use with only one counter tablet
- Contract-free – we don't ever require a monthly or annual contract
- Fully customizable so your brand is the main entity seen by all your customers

Spark Loyalty also offers a simple pricing model – One monthly flat rate of \$99 per store location, with all features included! *Square's complicated pricing structure includes an upfront hardware purchase for \$169, POS system processing fees, plus an additional monthly fee for their loyalty program. Their participation-based pricing means that the more customer engagement you receive, the more you pay.*

Ready to make the switch?

Call or email the SnowShow Team:
