

SPARK LOYALTY®

The Smarter Solution for Independent Retailers

We are the leading solution for small independent retailers.

Our proof is in our customer successes: Spark Loyalty has 25 million check-in events with hundreds of retailers in 20+ states across the United States and around the world.

Unlike platforms such as *Toast*, Spark Loyalty is:

- Locally-owned with US-based customer service
- Simple to use with only one counter tablet
- Contract-free – we don't ever require a monthly or annual contract

Spark Loyalty also offers a simple pricing model – One monthly flat rate of \$99 per store location, with all features included!

Toast's complicated pricing structure includes three different tiers for their POS system, plus an additional fee for Toast Loyalty and a multi-year contract.
