SnowShoe is highly selective in certifying resellers who are qualified to create a successful business based on reselling, provisioning or deploying Spark Loyalty PRO, GROW or similar Spark Stamp systems in the market.

To qualify as a value-added reseller (VAR) for SnowShoe, your business must be a corporate entity, must have viable existing business relationships, and must understand how to be successful in the retail market. Once you're approved, you can look forward to a fruitful and long-term relationship with our team at SnowShoe!
